

CORE COMPETENCIES

UPDATE

November 2013

Welcome back to another season of core comp newsletters and email blasts. As your implementation committee we took a step back and have reevaluated how we are going to share all the latest and greatest. Our committee members have also

changed up a bit but we will share all that new info in our December newsletter. In the meantime enjoy a preview of our new core comp logo! As a reminder the last competency we focused on was **Fostering independence in others**, in December we will

look at **Advocating for others**.

If at any time you have suggestions or questions you can contact your supervisor who will then direct you to a committee member.
